# eFx

eFx (e-File Express) is a cloud-based platform that enables a state to securely store, audit, manage, and build reports for electronically filed Premium Tax returns and other required filings.

With a wide array of capabilities and features—plus the ability to enter and export data—eFx does all the heavy lifting so you can immediately and efficiently manage return data.

## KEY FEATURES

### EFFICIENCY

Electronic management minimizes administration and operations workload. No more physical storage, stacks of paper, or manual entry.

### CUSTOMIZED REPORTING

Utilize standard reports or create custom reporting tailored to your needs, and immediately analyze or export data. Data is right at your fingertips with eFx.

### DATA MANAGEMENT

Choose fields from your returns to import into eFx. Create customized templates to upload external data, including remittance/payment amounts, company info, historical data, etc.

## CONNECT WITH US

(800) 380-6407

[efx@tritechsoft.com](mailto:efx@tritechsoft.com)

[www.tritechsoft.com](http://www.tritechsoft.com)

## VALUE

### DEDICATED SUPPORT

eFx comes with renowned, industry-leading TriTech customer service, plus access to a knowledge base to increase the skill and expertise of users.

### CUSTOMIZED CONFIGURATIONS

eFx's interface is uniquely designed to match your specific filing requirements. As these change year over year, we update the system accordingly to fulfill your needs.

### DOCUMENT MANAGEMENT

Attachments, supporting documents, and all returns for the period- both original and amended- are available in one convenient location.

## BENEFITS

### REDUCED OVERHEAD & COST

eFx is cloud-based, virtually eliminating the need for costly dedicated physical data infrastructure, resources, and maintenance.

### SECURITY

Tax records are stored permanently and securely, utilizing data encryption and segregation. TriTech is SOC2 Type II compliant.

### CONTINUITY & RECOVERY

TriTech data hosting's Business Continuity and Disaster Recovery (BCDR) minimizes risk. With eFx, you maintain functionality during emergencies, disasters, and outages.
