2020 Tax Season... That's a wrap!

Another tax season is in the books! This year our services team completed over 7,600 filings. Of those, 3,500 were electronically filed – which is an increase compared to years past. We see that the e-filing trend is continuing to gain traction in the industry, and we made good use of Auto Efile this year, one of our most anticipated new features.

Both our Software and Services teams are shifting gears to determine how to best serve the industry. It's not too early to think about next year's tax season! Make sure you have your renewals in soon so you know you're covered. As always, TriTech has your back!

How many filings?

Based on our data, over 45,500 annual filings were made through Premium Pro Enterprise this year. Over 19,000 were done through our Hosted solution, and our services team completed over 6,000. That puts us at over 70,000 annual filings made during tax season this year.

We are proud to be able to offer the many jurisdictions and filing options we do. We anticipate the number of overall filings will grow again next year, and we're ready to meet that demand.

Novel Coronavirus Updates

Life has certainly changed for all of us through these uncertain times. Despite the virus, TriTech has remained fully operational and dedicated to providing the service you've come to expect from us. We have plans in place, and are working to keep our employees and their families safe. Rest assured that TriTech is here to help however we can!

Advisory

We have been closely monitoring the COVID-19 situation. The health and safety of our attendees, employees, and speakers are a priority for TriTech. Therefore, we have made the difficult decision to cancel our onsite Advisory Meeting in Tampa, FL this year. We plan to host next year's Advisory meeting in Tampa, FL in June 2021. We will keep your registration on file and give you the first opportunity to attend next year's meeting.

We are exploring our options with virtual meetings and mini sessions for the week of June 15th. It is important for all of us, especially during this extraordinary time, to stay connected and to engage with each other. We will send out more information over the coming weeks as it becomes available.

In the meantime, we would like to gather your ideas and suggestions about the virtual meetings. This includes hot topics, software features, and any tools you might find beneficial to conduct the sessions. We look forward to talking with you before too long, and hopefully we'll see you all in Tampa next June!

TriTech's 25th Anniversary

As TriTech Software was founded in 1995, 2020 marks our 25th anniversary as a company. At the turn of the new year, we had many plans on how we wanted to celebrate this achievement with you, our clients, as well as with our employees and our extended TriTech Family.

Currently, we have turned our attention to the recent events and how to best continue forward. Though this chapter of our history is one we never expected, we have learned a lot and found ways to strengthen our company for the years to come. TriTech has been here for 25 years - and we aren't going anywhere. Here's to 25 more!

Serve. Grow. Transform

In our last newsletter, you read about how we participated with Royal Kids' Camps to hold a birthday party and fun camp activities for foster kids.

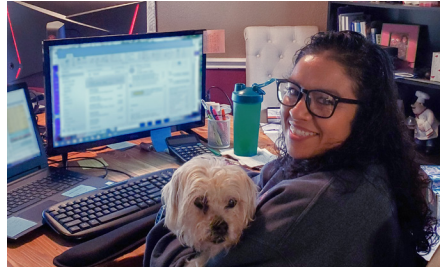

It was such an impactful experience that we're planning to participate again this year. Join us in donating to this amazing cause!

Our New Digs

Reducing the spread of the novel coronavirus has caused all of us to change different aspects of our lives and work. While TriTech remains open and fully operational, most of us are working remotely. This means we have a new work environment and new coworkers to keep us company!

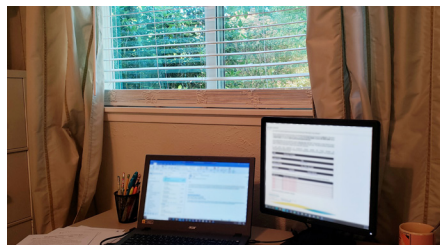

Take a look at Abbey's home workstation and her coworker Woodrow! He keeps her on her toes...

Selena has a laptop and a lapdog. If you ask me, both are essential tools for the job.

Erin is enjoying her desk with a beautiful view outside. Her new coworkers - her kids - make for a lively office.

And Brandon has found himself a new natural habitat.

Though times are tough, we're persevering and doing our best to find levity and reasons to be thankful. We hope you and yours have been able to do the same!

Construction

Our building expansion is coming to a close, after seven months of work! We broke ground last September, and construction has moved steadily along since then. The expansion itself was completed at the end of March, and now, we look forward to utilizing the new space. We're so happy to see it come together!

We're thankful to all the workers that have put so much time and energy into this endeavor, and we can't wait to see what the future holds!

Giving Back

As you know, TriTech donates thousands of dollars to charity every year. We also donate our time and give our prayers to those who need it most. During these uncertain times, our communities need more support than ever. Here are a few of the charities we donate to. If you donate, be sure to [share your receipt with us](#). We will match donations dollar for dollar!
