

TRITECH STRATUS

TriTech Stratus is a fully web-based platform, housed in state-of-the-art cloud infrastructure, and securely accessible from anywhere with an internet connection.

KEY FEATURES

SEAMLESS ACCESS WITH ENHANCED SECURITY

Our platform ensures top-tier security through Multifactor Authentication, and comprehensive data encryption to protect your information. Federated SSO Authentication for a seamless login experience will be coming soon.

COMPREHENSIVE ENCRYPTION WITH HIGH-LEVEL REDUNDANCY

Ensures optimal security with comprehensive data encryption and boosts reliability and availability through high-level redundancy

ENSURING DATA SECURITY

SOC 2 Type II compliance drives our internal controls, ensuring your data is protected with the highest standards of security and accountability.
